Damon,

I will pass along this request to our database manager. I will contact Ms. Love directly in the coming days if we have any questions or need any additional clarification.

Thanks.

Subject: RE: CFAC Phase I data

Good afternoon Michael,

Thank you for providing the sample counts and access to the database. In order for us to complete our oversight roles, we need to be able to query and download data. As discuss we are requesting permissions to gain this access.

Our data base manager is familiar with the current system and has provided input on how to complete this request.

Please see the bullet below:

- ☐ ☐ ☐ ☐ ☐ ☐ ☐ ☐ We are familiar with using the EZView widget for reporting and downloading data. The widget should be set up with a standard analytic results report such as “Analytical Results II” or whatever standard analytical report used by your firm. Also it would be helpful to check the box for “View/edit parameters in widget to run the report without saving.” In the EZView widget. This will allow us to query data in manageable amounts for downloading.

I have also included her on the email if additional clarification is needed.

Thank you,

Damon L. Repine, CSP

Damon,

Here is the information to access the database for you and Mike.

To access EQuIS Enterprise:

1. Navigate to the following URL: https://roux.equisonline.com/cfac_rifs
2. Enter the User Name - Cirian.Mike@epa.gov
3. Enter the password - Dfkx37Jwq!

To access EQuIS Enterprise:

1. Navigate to the following URL: https://roux.equisonline.com/cfac_rifs
2. Enter the User Name - repinedl@cdmsmith.com

3. Enter the password - Ptyw87Hfy!

Good morning Michael,

I reviewed my emails and I cannot find the email that links to the CFAC database website. Could you please send the link?

Thank you,

Damon L. Repine, CSP

Subject: RE: CFAC Phase I data

Damon ,

As discussed, all of the EDDs that have been generated so far for the project are available for download on the CFAC database website.

The geologic logs/well construction logs and field datasheets will be included as appendices to the draft Phase I Site Characterization Data Summary Report, which we plan to submit at the end of the month.

I will provide final sample counts next week once we have had a chance to perform final QA/QC on all the numbers.

Thanks.

Subject: CFAC Phase I data

Good afternoon,

Michael can you please provide the following items for us to review.

- All analytical data
 - EDDs
 - Database files
 - Any historical data tables in Excel format
 - Laboratory documentation for sample prep
- Geologic logs – prepared (e.g., gINT or similar) or field logs if prepared logs are not available
- Well construction logs – see above
- Sampling logs/field sheets
- Total sample count (i.e., 20 sediment, 50 soil, etc.)

If you have any questions feel free to contact me anytime.

Thank you,

Damon L. Repine, CSP
